MELT ART & SCRAPBOOK
ACCESSORIES

Press Release

Decades of Distress™ in one simple step! Ranger is excited to introduce Tim Holtz™ Distress Crackle Paint™—a unique one-step paint that cracks as it dries. With a convenient, built-in applicator brush, add instant aging to cardstock, chipboard die cuts, paper maché projects and more. Distress Crackle Paint coordinates with the fabulous palette of 24 Distress Inks™ and Distress Embossing Powders™. Combine them all for creative weather-worn effects on cards, scrapbook pages, and canvas.

This special Distress Crackle Paint formulation dries quickly and gives a varied look, depending on the thickness of the paint application. Apply a medium coat for fine cracks, a heavier coat for larger cracks, or vary the application for a truly timeworn look on all types of craft projects. To accent the cracked surface even further, your finished piece can be rubbed with Distress Inks for additional highlights.

Available in 1.1 fl.oz jars with a convenient built-in brush applicator lid. A 24-facing display with full color header is also available.

Visit us at CHA Summer Trade Show, Booth #2008, for more information, samples and demonstrations. Available September 2007.
