Press Release

Ranger announces the newest Inkssentials™ solution for mess-free ink application on paper crafting projects! The Ink Blending Tool is an ergonomic, solid wood tool that is ideal for precise application of inks and other craft mediums. The Inkssentials™ Ink Blending Foam, is a high-density, high quality foam, ideal for applying and blending inks on papers.

Simply attach an Ink Blending Foam to the Ink Blending Tool, tap into your ink pad, then apply directly onto papers, tags, chipboard, die cuts, canvas and more. The Ink Blending Tool gives you control of ink placement and can be used for multiple techniques.

The Ink Blending Tool comes with two starter foams in blister packs ready to hang. Each Replacement Foam package has ten pieces of foam and matching graphics to identify this as a must-have item when customers are purchasing the Ink Blending Tool.

The Ink Blending Tool is also conveniently interchangeable with Ranger's Adirondack® Alcohol Ink Applicator™. The Inkssentials Ink Blending Tool Replacement Foam and the Adirondack Alcohol Ink Replacement Felt both work on either tool.

Visit us at CHA Summer Trade Show, Booth #2008, for more information and demos. Available August 2007.
